

Lifelong Learning Programme 2007-2013

Leonardo da Vinci

TRANSFER OF INNOVATION

Model: INTERIM REPORT 2007

Note: The electronic version of the form is available at:

www.leonardo.org.uk

Grant Agreement number: UK/07/LLP-LDV TOI - 062			Gran	Grant agreement period: 01/11/2007 - 31/10/2009				
Starting Year: 2007	Country: UK		Proje	ect duration	: 24	(mo	onths)	
Title: Evidenced Based Medicine: Training the				ers across	the healt	hcare sec	tor	
Beneficiary: University of Birmingham								
Beneficiary's leg	Beneficiary's legal representative: Mr Robert Fekete							
Period covered by the report From: .01/11/2007 To: 31/ 10/ 2008								
Grant Agreement amendments			No:		Yes:	✓	How many:	1

DECLARATION OF CONFORMITY

I, the undersigned, hereby declare that the attached information is accurate and in accordance with the facts. In particular the financial data provided in this report corresponds to the expenditure actually incurred by the project partners for carrying out project activities. This information has been approved by the authorities representing the partners involved in the activities set out in this Report.

✓ We request the payment of supplementary pre-financing (advances)
We do not request the payment of supplementary pre-financing (advances)

(please tick where appropriate)

(Original signature of the person legally authorised to act on behalf of the beneficiary organisation and who signed the agreement)
Name of beneficiary's legal representative: Mr Robert Fekete
4

Grant Agreement number and Acronym:	
Position within the beneficiary organisation:	

Report to be returned to the following address:
(Name and address of the National Agency)
Ecotec Research and Consulting Ltd
Haines House 28-34 Albert Street
Birmingham
B4 7UD

A. BENEFICIARY ORGANISATION

Information to be checked and updated, if necessary.

Note: Where requested, please insert codes <u>and descriptions</u> from the tables in the annex. This form has cross-references to the tables in the annex: holding the "Ctrl" button on your keyboard and clicking on your left-hand mouse will lead you to the right table.

C. WORK PROGRAMME

OVERVIEW OF PROGRESS

Please summarise activities compared to the initial planning.

C.1 – PAST ACTIVITIES (font 12, max. 1 page, no more than 50 lines).

- Building a partnership: draw up partnership contracts, officially appoint (a) steering; (b) advisory committee members.
- Defining partner roles: what partners will be leading for project elements
- Establishment of Project teams.
- Explore avenues of accreditation with universities and organisations.
- Development of the Curriculum: initial partner meeting with the steering committee present to agree on initial structure for the curriculum (taking into account the results discovered in WP 1); developing the draft curriculum for consultation among all partners, partners to agree on final elements, structure and layout of the curriculum.
- Production of the Curriculum
- Translation and adaptation of the EBM curriculum by three partner countries so far (more to follow in year 2)
- A database of relevant audiences including EBM experts, teaching organisations at regional, national and European Level was compiled with information regading the project and promotion of the project website sent to them via mailing lists
- Marketing materials containing the website address designed and distributed to relevant audiences
- Website with discussion portal developed and address distributed within each country
- Validation by recognised professional organisations in the EU of the EU EBM teaching the teachers course sought
- Dissemination via the website of relevant National and European organisations to increase awareness and the profile of course
- Publishing of project papers in medical/ medical education journals
- Needs assessment undertaken: identifying what existing "Train the Trainer" courses are available and in which countries; collation and mapping of the above assessments; disseminate results of mapping to raise awareness of the needs identified.
- Installation of updated software to maintain website. Update forums and portals available to ensure all interested parties can access the correct information.

C.2 – FUTURE ACTIVITIES (font 12, max. 1 page, no more than 50 lines).

- Steering Group meetings to be held regularly
- Dissemination: production of Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences.
- Pilot the curriculum in the UK, the Netherlands, Poland, Germany and Hungary.
- discuss the success of the pilot towards the end and to agree on further amendments to the curriculum so it can be finalised
- To bring all elements of the project together so the outcomes and results can be disseminated to the widest possible audience
- Various educational conferences to be attended to disseminate the project
- Validation of the EBM trainers course as an effective and valid instrument for improving education of doctors and ultimately patient care, which is recognised by professional organisations in the EU
- Grand conference of partners, influential bodies and other stake holders to be held
- Explore further opportunities for progression of the EU EBMTT qualification and materials to other sectors (e.g. EBMTT for tutors, EBMTT for nurses) and countries
- Analyse the results of the pilot
- Production of subsequent papers for publication in each country
- Database of European stakeholders.
- Explore further funding opportunities for the partnership.
- Continuation of Translation and adaptation of the EBM curriculum by each partner country
- Continuation of the Needs assessment undertaken: identifying what existing "Train the Trainer" courses are available and in which countries; collation and mapping of the above assessments; disseminate results of mapping to raise awareness of the needs identified.
- Systematic review
- Interim and final evaluation reports will be distributed via the website for public consultation

(EL) AMC Amsterdam (Student Observing)

Partners attending		

Key results (summary of the minutes) (font 12, ½ page maximum, per case)

Ben Mol (BMol) AMC Amsterdam; Rita Horvath (RH) TUDOR; Gianni Zanrei (GZ) Universitia Cattolica del Sacro Cuore; Jacek Walczak (JW) CASPolska; Milena Ryzner (MR) CASPolska; Berit Meyerrose (BMey) AquMed; Shakila Thangaratinam (ST) University of Birmingham; Claire Davis (CD) J&AB Associates; Evelyn Lai

Agenda Item 3: Partners roles & responsibilities (ST presentation)

• UEMS has a system to accredit EU courses = 100=150 € max. This could accredit both the EBM Training the Trainer's course and EU EBM Unity course. A proposal has to be put together and then a fuller application for accreditation is submitted.

ACTION: RH and ST to look into this further on behalf of the partnership

• RH - the cultural differences will be most apparent while testing these learning opportunities.

ACTION: ST to circulate a learning opportunities framework for partners to use.

Agenda item 4 Feedback from Steering Committee (CD presentation - put together by Julie Hadley)

• RH - useful for the trainer to go through the course like their students will have done. Need more specific information re measurements on how this will be done.

ACTION: ST to produce an action list for the project.

7. Website (a) & e-learning platform (b)

• (a) It is important that the partnership do keep track of who is visiting the website. Perhaps use a free registration tool (access code). A policy statement is needed so people do not use it for commercial purposes.

ACTION: ST to contact the contracts officer at Uni of Bham to put this policy statement together.

ACTION: GZ to add all different languages onto the website detailing whether the modules are available in audio, text etc.

 New project will be available on the same website domain as the previous project. People will go on to the website and the front page will show both projects.

ACTION: ST to re-send EBM Training the Trainer project logo to GZ

 Any queries/questions etc made on the project via the website should be passed on to ST as project manager and representative of Lead Contractor.

ACTION: ST to provide a brief summary of the project to GZ for the website, after circulating to partners.

9. Outline of modules

• JW - all must remember that different partners may not have the same learning opportunities available within their organisation.

ACTION: ST to provide a glossary of learning opportunities so partners can translate this into how they work.

11. Agenda Item 6: Valorisation Strategy (ST presentation)

Does not measure the effectiveness of intervention.

ACTION: All partners to record what they do at each meeting.

No. and title of the meeting 2) Bo	erlin partner meeting		
Place Amsterdam			Date

Purpose of the meeting			
Partner update meeting			
Partners attending			
All Partners			
Key results (summary of the minut	es) (font 12, ½ page maxir	num, per case)	

- All surveys on EBM courses in partner countries to be returned to Amsterdam Partners by 03.11.2008
- J&AB and the Birmingham Partners to produce mobility draft application prior to Basel meeting
- French Translations to be emailed to Italian partner to be added to the website
- All partners to give details of their individual expertise and contacts, and any forthcoming news and events relating to the project, for the web site
- All partners to provide a list of obstacles to be implemented in each module and all partners will send a short paragraph on their definition of each clinical setting in their respective country by mid June 08
- Gianni and ALL PARTNERS to liaise as GZ will put the draft modules onto the web-site for comment from all the other partners
- Shakila will aim to complete the project module outline within 6-8 weeks (approximately by 12th July 08)
- Andrew Tonner to investigate the likely costs for a final meeting, and how much money in the budget is available for this
- Poland agreed to complete a systematic review of TTT Courses available

Please add sheets as appropriate.

IMPLEMENTATION OF WORK PACKAGES

C.6 – PLEASE DESCRIBE CLEARLY AND BRIEFLY THE ACTIVITIES UNDERTAKEN IN THE WORK PACKAGES

Work package no	1		
Work package title	Induction		
Actual start date (dd/mm/yy)	01/11/2007	Actual / Planned ³ end date (dd/mm/yy)	31/03/2008
Present status of the work (% of completion)	100%		
Costs already incurred	Start up meeting costs including travel and subsistence, staff time costs and indirect costs		
Package leader	Birmingham		
Partners participating in the W	D		

Partners participating in the WP

All Partners

Work package aims

- To build on the successful partnership that has been established on the current EU EBM Unity Project.
- To identify the current gaps in EBM Training the Trainer's qualifications
- Clarify the partnership, its roles and responsibilities and ensure contracts are signed between each partner and the lead organisation.

³ Depending on whether work package has already been completed or is still under implementation

Activity already carried out (including milestones)

- P1 University of Birmingham:
- Build a partnership: partnership contracts created, steering and advisory committee members officially appointed
- Defined partner roles: what partners will be leading for project elements
- Established project teams.
- Explored and continue to explore avenues of accreditation with universities and organisations.
- P2 J&AB Associates:
- Coordinated the contracting, management and monitoring arrangements between all partners and ensured distribution and understanding of the Lifelong Learning programme monitoring and management criteria.
- Provide all partners with the documents required by the National Agency to be completed per month e.g. staff timesheet, expenses, monthly activities and dissemination.
- P3 AQUMED:
- Confirmed participation roles and responsibilities within the project.
- Project management in Germany and providing information on the German Healthcare Sector.
- P4 TUDOR:
- Project management in Hungary and providing information on the Hungarian Healthcare Sector.
- Confirmed participation roles and responsibilities within the project.
- P5 Universita Cattolica del Sacro Cuore:
- Dissemination: developing website with discussion portal for partners, advisors and interested members of the public.
- Project management in Italy and providing information on the Italian Healthcare Sector.
- Exploring avenues of accreditation with universities and organisations.
- P6 AMC Amsterdam:
- Needs assessment: identified what existing "Train the Trainer" courses are available and in which countries; collation and mapping of the above assessments; disseminated results of mapping to raise awareness of the needs identified.
- Exploring avenues of accreditation with universities and organisations.
- Project management in the Netherlands and providing information on the Dutch Healthcare Sector.
- Confirmed participation roles and responsibilities within the project.
- P7 Poland:
- Project management in Poland and providing information on the Polish Healthcare Sector

⁶ Depending on whether work package has already been completed or is still under implementation

P1 - University of Birmingham:

- Development of the Curriculum: initial partner meeting with the steering committee present to agree on initial structure for the curriculum (taking into account the results discovered in WP 1); developing the draft curriculum for consultation among all partners, partners to agree on final elements, structure and layout of the curriculum.
- Dissemination: production of Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences.
- Production of the Curriculum

P2 - J&AB Associates:

- Reporting: interim report to provide the National Agency with details of progress against the WP's detailed in the initial application;
- Interim evaluation report produced to accompany the interim report to detail sustainability.
- Dissemination and partner evaluation of current status of the project.

P3 - AQUMED:

- Provide feedback on draft Curriculum, and attendance at partner meetings.
- Dissemination: production of Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences.

P4 - TUDOR:

- Provide feedback on draft Curriculum, and attendance at partner meetings.
- Dissemination: production of Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences.

P5 - Universita Cattolica del Sacro Cuore:

- Installation of updated software to maintain website. Update forums and portals to ensure all interested parties can access the correct information.
- Technical support and advice for the partnership.
- Dissemination: production of Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences.

P6 - AMC Amsterdam:

- Development of the Curriculum: initial partner meeting with the steering committee present to agree on initial structure for the curriculum (taking into account the results discovered in WP 1); developing the draft curriculum for consultation among all partners, partners to agree on final elements, structure and layout of the curriculum.
- Dissemination: production of Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences.
- Production of the Curriculum

P7 - Poland:

• Provide feedback on draft Curriculum, and attendance at partner meetings.

LEONARDO DA VINCI PROGRAMME

Dissemination: production of TTEBM Curriculum marketing materials (posters, leaflets) for partners to promote the project amongst their own networks, and when presenting at conferences

Activity already carried out (including milestones)

- Development of the Curriculum
- Distribution of the initial draft paper to all partner for comments and feedback
- Birmingham Meeting of the partners to finalise the EBM curriculum
- Production of the EBM curriculum and uploaded on website
- Translation (in progress) and adaptation of the EBM curriculum by each partner institution
- Filming an editing of video examples of case studies to assist online modules
- Paper on project and curriculum in press with BioMed Central
- Dissemination of project through presentations (Oxford, Cardiff, Taunton), posters.
- Website activated and developed.

Changes, corrections in the activities compared to plans (past and future)⁷ and reasons why

No changes, however, in addition it was agreed that the polish partners would perform a systematic review of Training the Trainer EBM courses already being undertaken (if any) in Europe. It was also agreed that more work would be carried out on the website for an easier accessible page with links to additional materials such as podcasts (to be produced by Birmingham) of the modules and an advertisement of the project has been filmed to be aired on You Tube.

Description of methodological / pedagogical framework (where relevant)

No. and title of the result / product / process⁸

- **Teaching the teachers EBM Curriculum**: By the end of year 1, the project has undertaken a survey and a systematic review of **R1** Training the Trainer EBM courses already being undertaken in Europe. Initial results show there to be a lack of substantial EBM course for healthcare trainers. In addition the Curriculum is now available in 5 languages and are now accessible from the website www.ebm-unity.org and 6 modules are currently being uploaded
- **Teaching the Teachers handbook** (year 2) R2
- **E-learning tools**: all the training materials and activities including video tutorials will be uploaded onto an e-learning platform in R3 year 2. This will also be used as part of the project's dissemination plan as a unique point to start for acquiring competencies about the project
- Web based interactive course: Course developed and commences January 2009 and will be available online. R4
- **Dissemination programme**: A Research paper has been published in the press Biomed Central (A clinically integrated **R5** curriculum in evidence-based medicine (EBM) for teachers to incorporate EBM teaching in clinical practice: the EU-EBM Training the Trainers project.). 1 paper being submitted by Poland. The Website is easily accessible and an EBM poster has been used at various events. Dissemination is an ongoing process.

Please add rows as appropriate

⁸ This table and table D.2 below should correspond!

⁷ Please note that changes might require an amendment request and subsequent approval. In case of doubt please contact your National Agency.

Comments on this work package		

Please add work package sheets as appropriate

D. RESULTS / PRODUCTS / PROCESSES

D.1 – Please describe how you are exploiting the innovative result/s and/or product/s which your project is transferring. Please refer also to the permission of the initial developer to use his/her result/s and/or product/s for your project. (font 12, ½ page maximum, per case)

No. and title of the transferred result / product / process

R1	Teaching the Teachers EBM Curriculum
111	i reaching the reachers EDM Outriculum

R2 Teaching the teachers handbook

R3 E-learning tools

R4 Web based interactive course

R5 Dissemination programme

Description of the Permission for use

There is no commercialism during the two years of the project. As part of the ongoing sustainability strategy financial support will be sought for the website on which the curriculum will be available and, with the aid of independent support, capable of regular review and updating. The e-learning platforms will be maintained with either individual partner support or future applications to for example, the European Commission's FP7 Information and Communications Technologies programme.

Description how the result / product /process is being transferred

This project focuses on teaching the teachers how to effectively teach EBM concepts. This is done through curriculum development, surveys and dissemination. R1: a Survey was done in 5 countries including 4 other languages as well as in English. The Curriculum will be available in 5 languages and will be easily accessed from the website www.ebm-unity.org, and 6 modules are currently being uploaded (1 eg module attached on CD). the initial draft of the curriculum has been completed and the final curriculum will be completed in year 2 of the project as planned between months 12-24. The target group for this result/product are Senior healthcare providers who are involved/responsible for teaching healthcare professionals. It is anticipated that the curriculum will be put onto 50 CD roms. R2: Teaching the teachers handbooks will be completed in year 2 of the project as planned between months 12-24. R3: E-Learning tools is a result planned for this project to allow the EBM curriculum to be taught via the internet. In year 1, videoing of case studies has taken place at Birmingham Womens Hospital, to be used as instructional aids as part of the EBM curriculum. R4: Web based interactive course will be completed in year 2 of the project. R5: Dissemination programme: A Research paper has been published in the press – Biomed Central (A clinically integrated curriculum in evidence-based medicine (EBM) for teachers to incorporate EBM teaching in clinical practice: the EU-EBM Training the Trainers project.). 1 paper being submitted by Poland. The Website is easily accessible and an EBM poster has been used at various events

Please describe any modifications from the originally planned transfer process

N/A

Please add sheets as appropriate

D.2 – Please describe which results / products / processes your project has generated to date indicating the languages in which they are available.

In case of tangible results / products please send two <u>copies of each tangible result / product</u>, showing its current stage of development, with this Interim Report.

Note: Where requested, please insert **codes** and **descriptions** from the tables in the annex. This form has cross-references to the tables in the annex: holding the "Ctrl" button on your keyboard and clicking on your left-hand mouse will lead you to the right table.

Describ	be the implemented 1)dissemination and 2)exploitation activity.	
Descrit	be the implemented Tydissemination and 2/exploitation activity.	

- 1) Publication: this is advertising the project and informing people where EBM training currently stands in the EU and the extent to which it is being offered across the EU. The publication sets out the project aims and objectives. It was submitted and accepted by Biomed Central, a leading medical European journal. It has also been accepted by McMaster University, Canada aimed specifically at advances in EBM.
- 2) The use of the findings from the survey to develop the curriculum. The principle goal of the project is to improve training systems in participating countries and in order to do so we needed to collate information regarding the type and nature of EBM/practice courses that are currently being run within Europe. Initial results indicate there to be a need for our project to develop a standardised EBM curriculum across the EU. This also allowed us to advertise the project across Europe to key EBM healthcare individuals and practitioners.
- 3) The curriculum will be further tested in year 2 and disseminated more widely after the piloting has been completed. Training systems will be improved by the promotion of innovation and the transfer of project results international systems and practice.
- 4) The purpose of the poster was to advertise the project at events attended by healthcare professionals and EBM promoters internationally. It advertises the web-site address, a picture snapshot of a video ward round, along with t-shirts with the project's name and web-site. The use of the publication, advertising projects at conferences in Cardiff, Taunton and Oxford
- 5) The website is designed to disseminate the information and has links to other sites such as YouTube and Face book. The project advertised on 5 major EBM list serves, an international database for people who use EBM.

Transfer of Innovation

Which institutions/organisations were targeted? [table 1 – Type of Organisation]	Organisational size of targeted institutions/organisations [table 2 – Organisational Size]	Why these institutions/organisations have been chosen? What is their relevance in connection with the project objective?
EDU-PROFS, EDU-UNIV, PUB-HOSP	S4, S5, S7	Have members of our specified target groups (EBM teachers, Post Graduate medical students, Midwives, librarians and individuals) who work within EBM. A key aim of this project is to raise awareness of the importance of training the trainers in EBM as a means of combating current pressures within the European health care sector and ultimately encouraging the inclusion of the qualification developed into mainstream education.

Please add extra sheets as appropriate.

E.2 – Please identify what activities you have undertaken so far to ensure the sustainability beyond the lifetime of the project.

As part of the ongoing sustainability strategy financial support will be sought for the website on which the curriculum will be available and, with the aid of independent support, capable of regular review and updating. The e-learning platforms will be maintained with either individual partner support or future applications to for example, the European Commission's FP7 Information and Communications Technologies programme and Advantage West Midlands funding programmes. Dissemination forms an integral part of this initiative which aims to transfer knowledge across Europe about the benefits of the EBM teaching model which will lead to improved healthcare systems. The following measures have been put in place to ensure the continued success of the project in year 2, ultimately geared towards integrating the EBM model further in healthcare systems across Europe after the project has ended:

- 1 Dissemination activities including attending sector events and networking events to advertise the Evidenced Based Medicine teaching model to as wide an audience as possible.
- 2 Updated the website so that it is easily accessible, free to use and includes links to popular sites such as Face book and You tube where the project will be advertised to target wider audience.
- 3 A curriculum has been developed and has been translated into 5 languages to widen the impact and potential use of the model across Europe. The curriculum will be made fully available online in year 2 of the project to allow access to all of the innovative training

materials and to facilitate e-learning. Further improvements are being made on the modules to include materials relevant to other health care professionals, to widen its use amongst the sector further.

Please attach any related documents to the report as appropriate and mark them with a reference: for example "Dissemination and Exploitation E.1.1., E.1.2.", etc.

F. IMPACT

F.1 – Please describe - in quantitative and qualitative terms - how far your project has already achieved an effect/impact at 1) geographical (local, regional, national, European) and 2) sectoral levels, listing the quantitative and qualitative indicators you have used to measure the impact. Please provide information for <u>each</u> partner.

Partner 1 Birmingham, UK

By the end of year 1, the project has successfully developed a core curriculum. By the end of year 1, the project leader has received some interest from various key individuals within the medical profession interested in piloting the project, from countries like Germany, other UK regions and Spain. As the project progresses the impact will increase as it will be disseminated internationally and it will approach healthcare stakeholders and healthcare policymakers across the 6 partner EU countries and eventually across other EU countries.

1) Increasing awareness through dissemination (both national and international) and many invitations to give presentations about the project (Cardiff, Taunton, Oxford)

- 2) Development of the training modules and dissemination of the survey to increase awareness, maintenance of all studies within the project: pilot (comparison of knowledge before and after course) using the questionnaire developed Birmingham will coordinate the study
- 3) Barriers to implementation (the questionnaire will be included alongside the above pre-course questionnaire) and teaching activity questionnaire has been developed to assess difficulties in various EU countries in teaching EBM.
- 4) Technology acceptance model(can only be applied after the post-course assessment) to assess acceptance of e-learning and Validation of assessment tool.

Partner 2 J and AB Associates, UK

J&AB Associates has undertaken transnational monitoring activities to ensure that partners from 6 European countries continue to meet work package objectives. Support has also been provided at partner meetings, by email, phone and further meetings with the lead partner to advise on expected results and to ensure that the dissemination plan is carried out. Regular project updates have been submitted to J&AB Associates on a monthly basis from each partner, allowing J&AB to assist the lead partner monitor the impact the project is having which is centred around developing a European qualification in EBM to improve the mobility of European healthcare trainers, the efficiency of healthcare systems and patient care. An evaluation has been undertaken to measure the impact of the project against application targets to the end of year 1, and the evaluation report will be produced and submitted to the National Agency in January 2009.

Partner 3 Germany

Development of the training module (short term), (long term) dissemination of the survey to increase project awareness, input on website design, development of 2 publications, maintenance of -studies within project (See Birmingham, UK above). This partner has assisted with developing an assessment methodology and package to then be able to assess the trainers that undertake the EBM course. The assessment has been completed by the end of year 1 and will shortly be posted onto the project web-site.

Partner 4 Hungary

Development of the training module (short term), (long term) dissemination of the survey to increase project awareness, input on website design, development of 2 publications, maintenance of studies within project (See Birmingham, UK above). This partner has assisted with developing an assessment methodology and package to then be able to assess the trainers that undertake the EBM course. The assessment has been completed by the end of year 1 and will shortly be posted onto the project web-site.

Partner 5 Italy

Dissemination of the survey to increase project awareness (by adding survey to website), input on website design, implementation of new website and maintenance, issuing of access for individuals to access online courses. This partner has assisted with developing an assessment methodology and package to then be able to assess the trainers that undertake the EBM course. The assessment has been completed by the end of year 1 and will shortly be posted onto the project web-site.

Partner 6 Amsterdam

Development of the training module (short term), (long term) dissemination of the survey to increase project awareness, input on website design, development of 2 publications, maintenance studies within project (See Birmingham, UK above), in particular the Survey of existing TTT course and Survey on barriers to teaching EBM study. This partner has assisted with developing an assessment methodology and package to then be able to assess the trainers that undertake the EBM course. The assessment has been completed by the end of year 1 and will shortly be posted onto the project web-site.

Partner 7 Poland

Development of the training module (short term), (long term) dissemination of the survey to increase project awareness, input on website design, development of 2 publications, maintenance of 4 sub-studies within project (See Birmingham, UK above), in particular the Systematic Review. This partner has assisted with developing an assessment methodology and package to then be able to assess the trainers that undertake the EBM course. The assessment has been completed by the end of year 1 and will shortly be posted onto the project web-site.

F.2 – Impact on

Vocational Field	141, 721, 723
Level of education	ISCED 4VPV-WRK
Economic sector	P85.4
Target groups of professionals	STD-ADL, STD-TRNee, TCH-TCH, TCH-TRNer, TCH-PRF, TCH-FAC, ISCO23
Number of people directly addressed to date	Over 3,000

Target groups of vocational trainees	STD-TRNee
Number of people directly addressed to date	Over 1000

F.3 – Please identify how your project has made an impact specifically on UK National VET system to date.

The projects main result will be a European qualification in EBM, which will ultimately improve the mobility of European healthcare trainers, the efficiency of healthcare systems and patient care as well as offer a new vocational course across europe. A comprehensive report will be disseminated to all of the partner countries National health departments, and most importantly their professional bodies in charge of the content of mainstream medical training. Ultimately the curriculum developed by this project partnership will be integrated into the mainstream systems for healthcare teachers at Foundation Level Two or similar (the training varies in each country). In the medium term the project results will encourage an EBM network for standardisation across the EU, as training in EBM is currently totally unstructured. The project is using real time videos to demonstrate how EBM can be taught in different clinical settings (videos use a UK setting, but can be adapted to other countries).

The project has currently disseminated the development of Training the Trainers e-curriculum through presentations and leaflets. It has increased the awareness in the target groups through the surveys and website. Piloting of the curriculum amongst EBM teachers will further help in use of the curriculum at the end of project. The website has interested allied professional groups like librarians and midwives.

G. CONTRIBUTION TO EU POLICIES

Please select the objective/s which your project is addressing Table G.1 Leonardo da Vinci General Objectives

LEO-SpObj- a	To support participants in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development, employability and participation in the European Labour Market

Please describe how you are addressing these objectives at this stage of the project (font 12, max. ½ page, no more than 25 lines)

This project aims to improve transparency across the European healthcare sector through the design, development, promotion and piloting of a European training programme specifically for the training of healthcare trainers in EBM e.g. clinicians, doctors, nurses, radiologists, physiotherapists, etc. To date, this is being achieved through the following objectives: (i) mapping and assessment of the current teach the teachers programmes in EBM using questionnaire surveys (*task completed year 1*); (ii) developing further the work on the clinical risks and management issues raised by disparity between qualifications in EBM within the member states and across Europe and looking to how best this can be presented and learnt (*task underway year 1 and ongoing*); (iii) designing, developing and piloting accompanying state of the art, traditional and Information and Communication Technology based teaching material and e-learning tools to develop a well-balanced training programme (*task underway year 1 and ongoing*); (iv) improving dialogue and networking among medical teachers and between healthcare trainers and patients (*task underway year 1 and ongoing*).

By the end of year 1, significant progress has been made with developing the EBM curriculum including an initial systematic review of the existence of EBM type of courses in 5 countries across Europe and in 4 languages. Initial results indicate there to be a need for our project to develop a standardised EBM curriculum across the EU. This also allowed us to advertise the project across Europe to key EBM healthcare individuals and practitioners. The Curriculum will be available in 5 languages and will be easily accessed from the website www.ebm-unity.org, and 6 modules are currently being uploaded, the initial draft of the curriculum has been completed and the final curriculum will be completed in year 2 of the project as planned between months 12-24. Also E-Learning tools is a result planned for this

project to allow the EBM curriculum to be taught via the internet. In year 1, videoing of case studies has taken place at Birmingham Womens Hospital, to be used as instructional aids as part of the EBM curriculum.

The project is also continuing to realise one of its key components, namely dissemination. By the end of year 1, a Research paper has been published in the press – Biomed Central (A clinically integrated curriculum in evidence-based medicine (EBM) for teachers to incorporate EBM teaching in clinical practice: the EU-EBM Training the Trainers project.). 1 paper being submitted by Poland. The Website is easily accessible and an EBM poster has been used at various events. Year 2 will witness the development of further dissemination activities including the objective of informing the European health care community, governments and policy makers of the issues raised at each of the work package stages so that dissemination and best practice lessons are implemented at an early stage across the EU, lead to a common curriculum and ultimately a common qualification (task to be undertaken in year 2).

Please select the objective/s which your project is <u>directly</u> addressing Table G.2 Leonardo da Vinci Operational Objectives

LEO-Op	To facilitate the development of innovative practices in the field of vocational education and training other than at
Obj-3	tertiary level, and their transfer, including from one participating country to others

Please describe how you are addressing these objectives at this stage of the project (font 12, max. ½ page, no more than 25 lines)

The project contributes to these objectives and priorities by (i) developing new methods of training the trainers and providing assessments, certification and validation of integrated EBM in partnership with a range of organisations in Germany, Hungary, Italy, The Netherlands, Poland and the UK; (ii) developing and trailing key elements of the training programme through innovative approaches such as an e-learning tool delivered through various media methods including web based interactive courses and assessment. This individualised access to learning opportunities, including distance learning, will improve the content of any training programme; (iii) standardising and therefore recognising skills training and qualifications in EBM for medical trainers across Europe by helping to promote a standard curriculum and method of teaching, which improve transparency in the European healthcare sector and lead to a qualification; (iv) active dissemination and valorisation will ensure a wide range of organisations are aware of the project results and can therefore

implement appropriate responses into policy decision-making processes. To facilitate this process the project steering group will include agencies such as, The European Observatory on Health Systems and Policies and representatives from each countries Department Of Health, or equivalent

Which European priority does your project address? (select only one) Table G.3 Leonardo da Vinci European Priorities (in the call for proposals 2007)

Priority 2 – Continuous training of teachers and trainers

Please describe how you are addressing this objective at this stage of the project (font 12, max. ½ page, no more than 25 lines)

By developing new methods of training the trainers and providing assessments, certification and validation using the innovative method of real-time video clips to demonstrate the teaching of EBM during every day clinical practice. The assessments developed to assess the trainers following the course are the first of their kind to be adapted to this type of e-learning.

If applicable - please select the horizontal issue which your project is directly addressing Table G.4 Horizontal Issue

Div	promoting awareness of the importance of cultural and linguistic diversity and multiculturalism within Europe, as well as of the need of combat racism, prejudice and xenophobia

Please describe how you are addressing this horizontal objective <u>at this stage of the project</u> (font 12, max. $\frac{1}{2}$ page, no more than 25 lines)

- -Translations of the project are available in 5 different languages
- -Each modules takes into account each country's setting and what services are available to them
- -All partners have been included in the development of the project at every stage

If applicable - Please select the Lisbon Key Competence/s which your project is <u>directly</u> addressing Table G.5 Lisbon Key Competences

KC 1	Communication in the mother tongue
KC 2	Communication in the foreign languages
KC 3	
KC 4	
KC 5	
KC 6	
KC 7	Entrepreneurship
KC 8	

Please describe how you are addressing these Lisbon Key Competences at this stage of the project (font 12, max. ½ page, no more than 25 lines)

- -There is no similar concept to train teachers of EBM how to encourage their trainees to implement it into every day practice
- -The project is run by 6 European countries so takes into account the different practices around Europe and incorporates them into the training programme. The modules and website will also be translated into German, Hungarian, French and Polish as well as available in English.

H. GENERAL COMMENTS

H.1 – Please describe briefly any difficulties encountered in undertaking the project and what solutions were found to overcome the difficulties (font 12, max. 1 page, no more than 50 lines).

There are no existing e-courses for Training the Trainers in EBM. The needs of the target sector were not known at the start of the project. This was overcome by undertaking a survey in 5 partner countries. The healthcare system and educational environment in the partner countries showed variations. Through meetings and phone conferences between partners, the curriculum was developed taking into the account the diverse environments. The website was found to be slightly cumbersome operating for users of the course. This was resolved by meeting the Italian partner in Milan to develop a more user friendly website. By appointing dedicated research fellows in Birmingham and Amsterdam co-ordination of the project amongst partners became much easier. Regular monitoring calls by ECOTEC, the national agency helped ensure that the academic and financial targets of the project were reasonably met.

Grant Agreement number and Acronym:

Please update the ADAM database according to the information provided in this report:

http://www.adam-europe.eu/adam/homepageView.htm

I. ANNEXES TO THE REPORT

I.1 – List of annexes to the original of the report (mail delivery)

As appropriate please attach any related documents to the report and mark them with a reference: for example "Consortium Meetings C.6.1., C.6.2.", etc.

For example:
- Minutes of consortium meetings - Copies of tangible results / products (survey; research paper; poster)

Note: The following documents MUST be submitted with the Interim Report:

- evidence of bank transfers between the Beneficiary and ALL project partners
- copies of Subcontracting agreements and invoices including all Call for Tender documentation

J. FINANCIAL REPORT

Self-calculating (Excel) financial tables must be completed for all projects at the Interim Report and Final Report stages. The financial tables are available at your National Agency:

www.leonardo.org.uk

Receipt Acknowledgement Interim Report

This page will be returned to you when your Interim Report has been received. Therefore, please complete the information below clearly.

Note: During the content and financial evaluation of your project the National Agency might ask you for further information on the project.

5 - Project Descriptors

Code	Description
TOPIC-2	Addressing target groups with special needs
TOPIC-4	Assessment, certification, valuing learning
TOPIC-8	Comparing educational systems
TOPIC-11	Development of training courses
TOPIC-12	Education of specific target groups: (occupational travellers, migrants, travellers, gypsies)
TOPIC-13	Education in prisons or for social reinsertion of offenders
TOPIC-14	Educational institutions management
TOPIC-21	Foreign language teaching and learning
TOPIC-22	Gender issues, equal opportunities
TOPIC-23	Career guidance & counselling
TOPIC-25	New technologies, ICT
TOPIC-26	Inclusive approaches

TOPIC-27	Intercultural education
TOPIC-34	Methods to increase pupil motivation
TOPIC-35	Other
TOPIC-47	Quality and evaluation of education
TOPIC-48	Quality assurance strategies / indicators and benchmarking
TOPIC-49	Raising pupil achievement
TOPIC-54	Social integration / exclusion
TOPIC-62	Co-operation in the area of transparency instruments in VET (ECVET, EQF, Europass)
TOPIC-63	Development of common training contents or concepts
TOPIC-66	Integration of skills needs of the labour market into VET
TOPIC-67	Qualification of teachers and trainers in VET
TOPIC-68	Recognition of non-formal and informal learning
TOPIC-69	Reinforcing links between education and working life
TOPIC-70	Testing and applying common European approaches to VET
TOPIC-71	Vocationally oriented language learning (VOLL)

COLL01	Collaborative learning
COLL02	Team-teaching and other collaborative working methods
COLL03	Peer Learning
INTGR01	Support for less advantaged learners
INTGR02	Support for learners who have difficulties in learning
LANG01	Improve learners comprehension and expression in a language
LANG02	(CLIL) Content and Language Integrated Learning
ODL01	Open and Distance Learning
PRACT01	Job shadowing
PRACT04	Produce teaching material
RES01	Using observation and reflection to update and improve teaching strategies
RES02	Undertaking classroom-based research into teaching methods and approaches
RES03	Educational Research
TRN01	Teaching
TRN02	Teaching classes that are of mixed composition (in terms of ability, mother tongues or cultures)
TRN03	Mentoring
TRN04	Teach assistant's mother tongue

7 – Educational Product & Result Types

Code	Description
PR01	Report
PR02	Comparative studies
PR03	Learning resources
PR04	Study programme
PR05	Methodology
PR06	Instruction manual
PR07	Certification system
POL01	Educational policy recommendation
OTH	Other products
PR08	New curricula and qualifications
PR09	Teaching material
PR10	Teaching material for teachers
PR11	Pedagogical strategy
PR12	Plan for educational activities
PR13	Traditional education and training modules like handbooks and other training tools
PR14	Innovative education and training modules
PR15	Guidance material to new approaches and methodologies
PR15	Guidance material to new approaches and methodologies

PR16	Online education and training material (e-learning)
PR17	Public awareness campaigns
METH01	Increased knowledge of the participants within a certain field and topic
METH02	Co-operation processes and methodologies
METH03	Managerial lessons learned and know-how
METH04	Exchange of ideas and good practice
EXP01	Experience gained by the project partners in the management and undertaking of (trans-national) partnerships
EXP02	Experience gained by individuals
EXP03	Exchange of experience and best practice through the establishment of networks
EXP04	Experience gained from town-twinning, cultural events
POL02	Policy lessons
EUCO01	New or extended European partnerships
EUCO02	Trans-national sharing of experience and best practice
EUCO03	Cross-cultural dialogue and co-operation
EUCO04	New dialogue and partnerships between EU and non-EU countries
POL03	Recommendation for the Open Method of Coordination (OMC)

8 - Target Groups

Code	Description
LAB-FJS	First Job Seekers
LAB-UNE	Unemployed
LAB-SAL	Employed
LAB-RET	Retired
LAB-EMP	Employers
LAB-SELF	Self-employed
STD-PUP	Pupils
STD-TRNee	Trainees
STD-APP	Apprentices
STD-ADL	Adult learners
STD-OTH	Others
TCH-TCH	Teachers
TCH-LANG	Language teachers
TCH-TRNer	Trainers
TCH-PRF	Higher Education Professors
TCH-STAFF	Headteachers, directors, rectors
TCH-MNGR	Education managers

TCH-ADMIN	Administrative and other non-teaching staff
TCH-INSP	Inspectors
TCH-ADV	Advisors
TCH-CNS	Counsellor or careers adviser
TCH-FAC	Educators / mediators / learning facilitators
TCH-TRV	Staff involved in intercultural education or working with children of occupational travellers, migrant workers, gypsies and travellers
TCH-SpNeed	Staff working with pupils with special educational needs
TCH-OTH	Other

ISCO-111	Legislators and senior government officials
ISCO-114	Senior officials of special-interest organisations
ISCO-121	Directors and chief executives
ISCO-122	Production and operation managers
ISCO-123	Other specialist managers
ISCO-131	Managers of small enterprises
ISCO-23	Teaching professionals
ISCO-241	Business professionals
ISCO-242	Legal professionals
ISCO-247	Public service administrative professionals

10 - Educational Level

	Description
ISCED 2PV	Lower secondary or second stage of basic education - level 2 - pre-vocational programmes
ISCED 2VOC	Lower secondary or second stage of basic education - level 2 - vocational programmes
ISCED 2GPV	Lower secondary or second stage of basic education - level 2 - general and pre-vocational programmes
ISCED 2VPV	Lower secondary or second stage of basic education - level 2 - pre-vocational and vocational programmes
ISCED 2A	Lower secondary programmes designed for direct access to level 3, in a sequence which would ultimately lead to tertiary education (i.e. entrance to ISCED 3A or 3B)
ISCED 2B	Lower secondary programmes designed for direct access to level 3C
ISCED 2C	Lower secondary programmes designed for direct access to the labour market
ISCED 3-4	Upper secondary and post-secondary non-tertiary education - levels 3-4
ISCED 3- 4VOC	Upper secondary and post-secondary non-tertiary education - levels 3-4 - vocational programmes
ISCED 3PV	Upper secondary education - level 3 - pre-vocational programmes
ISCED 3VOC	Upper secondary education - level 3 - vocational programmes
ISCED 3GPV	Upper secondary education - level 3 - general and pre-vocational programmes

ISCED 3VPV	Upper secondary education - level 3 - pre-vocational and vocational programmes
ISCED 3VPV- SCH	Upper secondary education - level 3 - pre-vocational and vocational programmes - school based
ISCED 3VPV- WRK	Upper secondary education - level 3 - pre-vocational and vocational programmes - work based
ISCED 4PV	Post-secondary non-tertiary education - level 4 - pre-vocational programmes
ISCED 4VOC	Post-secondary non-tertiary education - level 4 - vocational programmes
ISCED 4GPV	Post-secondary non-tertiary education - level 4 - general and pre-vocational programmes
ISCED 4VPV	Post-secondary non-tertiary education - level 4 - pre-vocational and vocational programmes
ISCED 4VPV- SCH	Post-secondary non-tertiary education - level 4 - pre-vocational and vocational programmes - school based
ISCED 4VPV- WRK	Post-secondary non-tertiary education - level 4 - pre-vocational and vocational programmes - work based
ISCED 4A-B	Post-secondary non-tertiary designed to provide direct access to level 5
